Introducing the Tomos Golden Bullet

TOMOS

Stands for Reliability
Sure you can spend a lot more. But no moped delivers more than Tomos.

It takes European know-how to build a great moped.

While you're admiring the newest mopeds from Tomos, we'd like to impress you a bit with a reassuring fact: Tomos has been perfecting the fine art of moped manufacturing for over a quarter of a century. We're moped pioneers. With a basic goal that hasn't wavered from day number one. Simply, to build the finest quality mopeds at the best price possible.

Quality that won't let you down. To the countless thousands of Europeans who regard our mopeds as serious daily transportation, that's what Tomos is all about. Quality that can meet the challenge of cobblestone streets and winding hills... and skyrocketing fuel costs. Quality that, we hope, looks impressive on paper. And comes alive when you put Tomos to the test.

The Tomos Kickstart. It's the only way to start. And Tomos has it!

Get ready for the convenience of the Tomos Kickstart. Just one swift downward kick...and your Tomos is off and running like the swift, nimble charmer that it is. So forget about pedal-pushing starts. And remember that the Tomos Kickstart is just the beginning of a long list of performance features that make our low price seem all the more incredible.

Tomos makes the choice quite simple: Terrific. Or very terrific.

The Bullet  At Tomos, quality has always won out over quantity. And so, we've summed up the state of the art in two terrific models. Number one, the free-spirited Tomos Bullet (see photo). Here's the dependable, low-cost way to have a great time, with easy reverse kickstart that leaves most other mopeds back at the starting line. There's more, of course. Like two-speed automatic transmission to power you along, Independent wheel suspension. And Tomos' time-tested quality throughout. But don't take our word for it, see for yourself. We think you'll agree it's the best moped value in the country today. Available in blue or red.

The Golden Bullet  Where the Bullet and the Silver Bullet leaves off, comes the Golden Bullet with its extra extra class. A beautiful driving machine with style and outstanding performance. Beautifully designed in black and gold.

The Golden Bullet shares all the fine engineering features of the Bullet and Silver Bullet... But goes still a step further with the optional convenience of an improved oil injection system. It is the Golden Bullet. The best of all.
- Oil Injection Pump
- No mess or fuss of mixing the right amount of oil with gasoline.
- The pump does it all. Automatically.
- Available as an option with the Golden Bullet model.
A moped you can depend on.

When you choose Tomos, you're rewarding yourself with mile after mile of trouble-free ownership. You also have the peace of mind of knowing that, should servicing be required, replacement parts are easily and quickly available to your Tomos dealer. And that your new Tomos comes with a 4 month/4,000 mile factory warranty.

The Tomos tradition of quality and dependability. It's what you don't see that makes all the difference.

Specifications

**Engine type:** 1 cylinder, 2-cycle, air cooled
**Horsepower:** 1.5 and 2 hpr.
**Bore/Stroke:** 1.49/1.69 in.
**Displacement:** 3 cu. in. (49cc)
**Fuel:** Gas/oil two-stroke mix (50:1 ratio)
**Transmission:** 2-speed automatic
**Power train:** Gear-driven chain
**Ignition:** 40w
**Frame:** Monocoque welded steel shell
**Suspension:** Front: telescopic spring fork
Rear: independent with dual shock absorbers
**Tires:** 20 x 2.25 in.
**Lights:** Headlight: 6 volt/20w
Tail light: 6 volt/5-10w
**Fuel capacity:** 1 gallon / 1 pint reserve
**Dimensions:** Weight 95 lbs.
Wheelbase 42-1/2 in.
Overall length 64-1/2 in.
Overall width 27 in.
Overall height 39 in.

TOMOS BULLET

While you are admiring the newest mopeds from Tomos as shown in this brochure, we'd like to impress you with a few facts:

Only the Tomos family of mopeds features the unique turbo loc 2 speed transmission. We have what it takes to accelerate you smoothly, even up the steepest incline, the quality which nobody else has.

Tomos mopeds also contain the exclusive posistart feature. There are no levers to squeeze nor cables to break. Just one swift downward kick and your Tomos is off and running.

As in other areas of moped design, Tomos has pioneered the auto-mix oil injection system for mopeds. If you decide on an auto-mix equipped Tomos, you have chosen the “state-of-the-art” alternative to mixing oil and gas. With the auto-mix system, just drive to the gas station and fill 'er up.

2 SPEED AUTOMATIC KICKSTART
Behind the Name

For almost a quarter of a century, Tomos has been designing, engineering and manufacturing its own line of mopeds. Today the Tomos family of fine products includes automobiles, motorcycles, outboard motors, pumps and other motorized machinery.

With major manufacturing plants in Yugoslavia, Holland and Ghana, Tomos is totally committed to maintaining its international reputation for superb craftsmanship, with exacting quality standards.

Engineering Excellence

Tomos maintains one of the largest in-house technical research departments of its kind in the manufacturing world. The Tomos Institute specializes in the advanced development of the two-stroke engine. Every Moped engine is factory built and factory tested. Innovations like the 2 speed automatic clutch and the simplified, easy reverse kick start are only a part of the continuing Tomos engineering success story. Over the years the Tomos family of motorized products has won a host of excellence awards.

* Warranty - 3 months or 3,000 miles
* Every Tomos is built to conform with or exceed all state and federal safety regulations.

More For

Today's Tomos owner has the peace of mind that added extras like the transmission and the suspension make the ride smoother.

Thoughtfully designed, built and assembled, the suspension makes the ride smoother and the operation. Economical, too, and the suggested retail price makes it comparable to the purchases direct from the factory.

Your Money

Tomos moped is the latest in developments. With a new 2-speed automatic transmission and kick reverse start, greater riding enjoyment is yours. Plus extras like padded seats and independent wheel suspension come with your Tomos a much better deal.

A reliable factory designed and tested engine offers miles of trouble-free economy up to 150 mpg. All those added extras, plus the low price, make this the deal of the year. Your dealer is the one to contact. The factory is involved.

Imagine sprinting down the road, wind rustling through your hair. You notice your surroundings. The greenery takes on a fresher look and smell. People are everywhere. You notice looks of admiration.

That sleek, new Sprint Moped from Tomos, has certainly made riding enjoyable again. The low cost surprised you, considering all of the new features - contemporary design, durability, and fashion - targeted especially for the U.S. market.

The Sprint Moped is the first of a future series from Tomos combining all of the design and expertise of more expensive models. It is sure to become one of the most popular cycles ever offered by Tomos.

Its main features include an A35 Super Engine, Mag-Style Sport Wheels, two-speed automatic transmission, all in a very affordable package.

The engine is torque enhanced through Reed valve intake and delivers 32 percent higher output than previous years' moped models.

That, plus a computer designed 2 speed automatic transmission, make for a smooth, enjoyable ride.

Fuel tank capacity is 1 gallon with 1 pint reserve. The Mag-Style sport wheels are die cast for distortion free running.

For fashion, comfort, and most important of all, your budget, the Tomos Sprint Moped is built especially for you and your lifestyle.

When you see the Sprint, you’ll know that you’re choosing a product from the world’s premier manufacturer of mopeds.

Tomos means dependability. You will soon discover that you are rewarding yourself with mile after mile of trouble-free ownership. You also have peace of knowing that, should servicing be required, replacement parts are easily and quickly available to your Tomos dealer. And that your new Tomos comes with a 6-month factory warranty.

You can’t see the Tomos tradition of quality and dependability. But you can feel it. That’s what makes the difference.

See the A35 Sprint specifications on back page.
Cruise in style with the full-featured Bullets

Bite the bullet and go where many have gone before. To a Tomos Moped showroom, that is.

The restyled Bullet series from Tomos is sure to become one of the most exciting products to hit the moped marketplace in years. You can see all the newly redesigned Bullets - the Golden Bullet, Bullet TT and the Golden Bullet TT/LX - at a Tomos dealer near you.

The vibrant colors, high performance and durability, make this series from Tomos one of the most awaited in years. Choose one of the models and see at once why the moped industry is abuzz about these new offerings from Tomos, the first name in quality mopeds.

Each of the Bullets is powered by a state-of-the-art A35 Super torque enhanced engine that offers 32 percent better performance than previous moped models. A computer designed, 2 speed automatic transmission, along with a special oil injection system designed for Tomos by Mikuni, make this a reassuring ride for anyone needing short distance transportation.

The Mikuni oil injection system delivers precise oil to gas ratios for maximum engine life and clean combustion without the inconvenience and mess of premixing. The fuel tank holds 1 gallon with 1 pint in reserve.

The sporty look of each model is also sure to attract looks of envy from those sputtering around on ordinary scooters. Factor in the reasonable price and the Tomos Bullet series appears to be a sure winner.

See one of the elaborately styled Bullets from a distance and you'll wonder why you hadn't bought one sooner. Step into a showroom and make your vision become a reality.

When you choose a Tomos Moped, you're rewarding yourself with not only mile after mile of trouble-free ownership, but fashionable design, durability and styling as well. You're also buying the Tomos name which is synonymous with quality workmanship. It's the standard by which all moped manufacturers strive for, but can't quite reach.

See the A35 Bullet Series specifications on back page.

Computer designed, 2 speed automatic transmission.

OIL INJECTION BY MIKUNI
Delivers precise oil to gas ratios for maximum engine life and clean combustion without the inconvenience and mess of premixing.
Fuel tank capacity is 1 gallon with 1 pint reserve.

FLEXIBLE TURNSIGNALS
Greatly reduce the possibility of damage.

TOMOS MEANS DEPENDABILITY.
When you choose Tomos, you're rewarding yourself with mile after mile of trouble-free ownership. You also have peace of mind knowing that, should servicing be required, replacement parts are easily and quickly available to your Tomos dealer. And that your new Tomos comes with a 6 month factory warranty.
The Tomos tradition of quality and dependability, it's what you don't see that makes all the difference.
